

Kisaco Research – Returning Safely Measures

Whether sponsors, speakers or attendees, our customers attend Kisaco Research events to connect, learn and innovate to know more and do business. It is our commitment that as we return to in-person events, they can do this effectively, safely and with confidence.

All Kisaco Research events will prioritise the health and safety of colleagues and customers and, in the first instance, will be run in accordance with official government and local authority guidance, as well as any venue or location-specific regulations.

Kisaco Research is committed to following the Association of Event Organisers [All Secure Standard](#), which has been approved by UK Government.

Kisaco Research's Commitments:

Cleaning & Hygiene:

1. Enhanced cleaning: All Kisaco Research events will undertake enhanced, deep cleaning before, during and after our events, working with venue partners to ensure the highest standards of hygiene and cleanliness. This includes continuous sanitisation throughout the course of an event, with a focus on high-touch areas such as door handles, restrooms and food and beverage areas.
2. Personal hygiene: All Kisaco Research events will provide additional hand washing facilities and hand sanitising stations throughout the event space, encouraging all participants to regularly wash and disinfect their hands.

Social Distancing:

3. Physical contact: All Kisaco Research events will request that participants avoid physical contact, such as handshakes, promoting alternative ways to greet business partners. The exchange of printed materials, such as business cards and sales brochures, will also be discouraged, with digital alternatives recommended.
5. Physical distancing: All Kisaco Research events will maintain a density of participants in line with local authority regulations and venue or other relevant guidance. This will be managed through one or more control measures such as pre-event communications to participants, a one-way traffic system around exhibition areas, staggered entry times, on-site signage and floor markings and on-site social distance ambassadors.
6. Food and beverage stations: All Kisaco Research event teams will work closely with venue partners to employ the highest standard of food safety, minimising self-service buffets in favour of pre-packaged food options. If any queuing is anticipated, social distancing will be maintained using floor markings and relevant signage.

Protect & Detect:

7. Personal Protective Equipment (PPE): In accordance with official government and local authority guidance, participants may be asked to wear a face mask on entry. Further items of PPE, such as gloves and eye screens, will be used by participants and staff if appropriate, in line with local government and health authority advice at the time.
8. First aid: All Kisaco Research events will have access to a qualified first aider and a separate quarantine area if possible. Participants will be asked not to attend if they are feeling unwell, and teams will follow local health authority guidance on detecting and managing anyone who displays symptoms of COVID-19.
9. Screening: All Kisaco Research events will follow relevant health authority guidance on screening participants. This may include checking the temperatures of everyone on entry, through thermal scanning or other screening processes.
10. Trace and contact: Should it be necessary, all Kisaco Research events will work with local authorities to trace and contact participants at our events, subject to local privacy regulations.
